A PROPOSED PARKING ASSOCIATION. It is proposed to form an association whose members pledge themselves to keep the parking in front of their premises in good order. There are to be no dues, no fines, no prizes; and it is hoped that one meeting now for organization and in future an annual one for the election of officers will be all that will be necessary. IT IS HOPED THAT THOSE WHO ARE ACCUSTOMED TO KEEPING THEIR PARKINGS IN GOOD ORDER WILL SEND IN THEIR NAMES TO FURTHER THE MOVEMENT. Those who favor such a movement, the carrying out of which will greatly increase the beauty of our streets, have only to send their residence address, by telephone or mail, to address, by telephone or mail, to JOHN TAYLOR ARMS.

BACK TO THE DERBIES INSISTS IT IS MURDER THE COURT RECORD TO PRESERVE NIAGARA ISSUE A STATEMENT

STREETS BY CHILLY BLASTS.

The crop of straw hats that bloomed forth in this city several days ago, with the early flowers of spring, were singularly absent from the streets today as a result of the chilling blasts and the temperature hovering around the fifty mark. Many citizens, with visions of pneumonia and summer colds in their minds, performed the lightning-change act this morning by doffing their straw hats and light spring suits and donning their heavy winter clothes and overcoats, and the change proved to be a

pleasant one. "Talk about winter lingering in the lap of spring," said a veteran weather man, "this is a beautiful case of linger, and I observe that the ladies who were exhibit-ing their pretty springtime shirt waists of gauzy materials several days ago have seen fit, in the interest of health and comfort, don their discarded wraps and coats

When Prof. Edward B. Garriott, the forecaster of the United States weather bureau, was asked this afternoon about the pre-valling spell of amateur winter weather, he made the rather startling reply that there would be frost here tonight and the temperature would go down to within nine degrees of the freezing point. That is, the thermometric reading for tonight promises to be 41 degrees or theresbouts, and the freezing point is at the 32 mark on the thermometer.

Sun Spots and Cold Weather. He was asked if the sun spots which are said to be increasing in size have anything to do with the continued spell of chilly weather and replied that the sun spots may have something to do with the prevailing chilliness, but, so far as human knowledge goes, there is as yet no way of associating the two in the matter of cause and effect. "We don't know why these abnormal meteorological changes come and go," he said, "any more than we know why some people are taken suddenly ill. This weather is not normal, and it is colder than the average. It is rather late in the spring for such a cool wave. It is unusual, but not exceptional. We do not usually have this degree of temperature in Washington near the middle of May. The thermometers registered 41 degrees yesterday morning and the mercury will get down that low again tonight. The light frost we will have here tonight will not be heavy enough to do any great amount of harm. Tomorrow night it romises to be slightly warmer."

eran weather man to observe: "Wouldn't that chill you?" SUCCESSFUL CANDIDATES. Those Who Have Passed Examination

STRAW HATS DRIVEN FROM WIDOW OF LATE C. L. SPIER SCOUTS SUICIDE TALK.

> NEW YORK, May 9.-Plans had been made to have the funeral today of Charles L. Spier, the Staten Island business man who was shot in so mysterious a manne that the authorities cannot determin whether he was murdered or committed suicide. The bullet which caused Mr. Spier's death had not been located and the authorities desisted from an attempt to find it because Mrs. Spier objected to the mutilation of her husband's body.

As the authorities differed as to whether the bullet came from Mr. Spier's own revolver it was reported today that District Attorney John J. Kenney of Staten Island would refuse to allow the funeral to proceed until a complete autopsy had been made. Mr. Kenney said the builet that killed Mr. Spier should be found, in order to determine whether or not he was killed by his own revolver.

by his own revolver.

Mrs. Spier, widow of the dead man, said:

"I do not see any good of an autopsy to
find the bullet that killed him. To get it
would require a great deal of mutilation.
Dr. Patterson, Coroner Cahill and the assistant district attorney thought that it
would not be necessary. What would it
prove even if the bullet was found to be a
.32 caliber and fitted Mr. Spier's revolver?
I am told that is a very common size and an told that is a very common size and most men carry them. The burglar might have had a .32-caliber weapon, too. So the built itself would prove nothing.

"No matter what they say, I know my husband was murdered. "We were perfectly happy. I cannot imagine any reason why he should take his own life. There was not the slightest cloud in our lives. Mr. Spier was fond of his home. We had no differences. We had no troubles. I know nothing of the \$75,000 insurance policy he is said to have taken

A report was published today that there was a scene at a prominent Staten Island club recently, which resulted in a request that Mr. Spier leave the club. The cause of it is unknown.

Condition of Allen Harrison.

Allen Harrison, who was assaulted the 26th of last month, while in company with Miss Mary Hunt, near the Massachusetts avenue bridge, and who was operated upon at the Sibley Hospital last Monday, is still in a serious condition. There has been an improvement noticed since the operation was performed, however, and his recovery is anticipated.

Detectives are still working on the case and hope they will be able to apprehend the colored man who assaulted the couple. Miss Hunt, as stated at the time the assault was committed, was not seriously hurt.

Utowana in Port. The big steam yacht Utowana, hailing

from New York, came into the harbor this morning and went to anchor a short distance below the Washington Barracks pier. The yacht is a fine three-masted schooner-rigged vessel and is as handsome a craft as has visited this city for several years. She is owned by Mr. Armour, of New York, and with her owner and party aboard is here on a pleasure trip, having come here from Annapolis. The Utowana files the flag of the New York Yacht Club. She is a steel hull vessel of 414 tons burden, is 155 feet long and was built at Philadelphia in 1891.

MISSION'S REPORT TO CONGRESS.

HARRISBURG, Pa., May 9.-J. Horace McFarland of this city, president of the American Civic Federation, which organization has led the effort for the preservation of Niagara Falls, made a statement today regarding the report of the international waterways commission transmitted to Congress Monday by President Roosevelt. He

said:

"This report merely reiterates the recom mendations of the American section of the waterways commission as transmitted to with the eight hours as a working day, are Congress March 27, against which we protested to Mr. Roosevelt April 4. The report recommends the authorization of a total diversion of Niagara water of 64,500 cubic feet per second, which is 40 per cent of the minimum flow of the falls, and would, in the opinion of all but the power companies and the waterway commission, seriously damage the great cataract as a scenic fea

"After careful study and after consulta tion with Mr. Roosevelt this report was dis-regarded by Mr. Burton, chalrman of the rivers and harbors committee of the House of Representatives, who framed the Niagara of Representatives, who framed the Niagara preservation act now known as the Burton-Lodge bill. This bill, upon which many hearings have been had, stops the Niagara destruction at the present point, and by prohibiting the importation of Niagara-made electric power from Canada would restrain Canadian diversion. It would be operative for three years only, giving time for diplomatic action, without permitting the dematic action, without permitting the de-struction of Niagara to continue meanwhile

Report Hard to Understand. "The report of the international waterways commission is hard to understand, if that it would be a sacrilege to destroy the they yet propose to bleed 40 per cent from the falls, giving full vitality to all existing franchises except one, and that one an American franchise. It is as if they proposed to allow as many mosquitoes to sting a defenseless man as they thought he could

stand without tumbling over.
"We will renew our protest to President Roosevelt at once against this victous report, so favorable to the Niagara grabbers and so dangerous to the falls. We have advices from all over America that lead us to believe that the people want the falls preserved unharmed and not tapped for private gain to the danger point or beyond." gain to the danger point or beyond."

Mr. McFarland stated that letters in his possession assured strong congressional support to the Burton-Lodge bill.

EDWIN BURRITT SMITH DEAD. Noted Lawyer of Chicago Succumbed After Year's Illness.

CHICAGO, May 9 .- Edwin Burritt Smith

one of the best-known lawyers in Chicago,

died today at his residence, following an

illness extending over a year. Until early in 1905 he had been one of the most active attorneys connected with the traction litigation, being associated with Corporation Counsel Tolman in the preparation of the ninety-nine-year case for the city. This case recently was decided by the United States Supreme Court in favor of the Tolman-Smith contention. Mr. Smith was born in Spartansburg, Crawford county, Pa., in 1854. His wife, who was Miss Edna J. Dauman of Down-

Military Lines in the Chesapeake. Col. Ramsay D. Potts, Artillery Corps;

ingtown, Pa., together with two sons and

a daughter, survive him.

Capt. E. E. Winslow, Corps of Engineers, and Capt. George T. Bartlett, Artillery Corps, have been appointed a board to mee at Fort Monroe, Va., on the 15th instant to revise the recommendations of the board of officers, appointed in April, 1904, relative to the location of horizontal base lines in the artillery district of the Chesapeake, with a view to incorporating therein such changes as are suggested by practical experience in that district during the recent joint army and navy exercises.

The following appointments of fourthclass postmasters were announced today:

STATEMENT REGARDING COM- VIEWS OF CARRIAGE AND WAGON BUILDERS' ASSOCIATION.

The Carriage and Wagon Builders' Asso-

ciation have authorized the following state-

ment: engaged in the carriage business in this city, employing about 130 mechanics. The business is divided into four branchespainters, trimmers, woodworkers and blacksmiths. The prevailing wages have been from \$2 to \$3.35 per day, the average being about \$2.50 per day. These wages, with the eight hours as a working day, are probably better than is enjoyed by the carriage workers of any other city in the countries of the 140 carriage worktry. Three-fourths of the 140 carriage workers employed in this city have steady work throughout the entire year, while the other one-fourth have work for at least eight or

nine months of the year.
"With the exception of blacksmiths, the Carriage Builders are already paying the wages as demanded by the union to me-chanics who are capable of earning it, but the carriage workers demand that its members, whether competent or not, shall receive \$8 and \$3.50 per day, or more. carriage workers, so it is understood, have refused to grade its members on a scale according to their individual competence.

Denial of Assertion.

"In a recent published statement the carage workers say: 'Already ten of the employers have accepted the new scale, while eleven of them still hold out. For this reason about one-third of the strikers have returned to work.' As a matter of fact, not a single mechanic who has gone out on the present strike has returned to work. The ten firms named as having conceded to the commissioners believe what they assert, the advanced scale do not employ, in the aggregate, as many as twenty-five men, and scenic effect of Niagara Falls. Saying this, several of them are not carriage builders

in any sense of the word.
"The Carriage and Wagon Builders Association, embracing sixteen employing firms and representing 90 per cent of the carriage interests of the city, have, as one man, voted not to accede to the unusual demand of the Carriage Workers' Union."

Contract Presented by Journeymen. The contract presented to the master carriage and wagon builders by the local union of journeymen, and which the employers refused to sign, provides that 'eight hours shall constitute a day's workseven and offe half hours Saturday; that the minimum scale of wages of the blacksmiths shall be \$3.50 per diem and of the painters, trimmers and woodworkers \$3, the apprentices to receive \$2 per diem after serving the first year. Time and a half for overtime after the expiration of the eight hour day and double time for Sundays and all legal holidays, the agreement to become operative May 7, 1906."

CHILD SEVERELY BURNED. Slight Fire at the Residence of George

C. Craft.

A slight fire occurred in the rear room on

the second floor of the house of George C. Craft 314 C street southeast, about 11 o'clock this morning. Only about \$10 damage was caused to the contents, but Mr. Craft's two-year-old son, Henry, was severely burned about the head and arms. A member of the fanily was engaged in doing some cleaning in the room, using gasoline, and when she accidentally stepped on a match and ignited it the blaze followed. Arthur Hooper turned in an alarm from box 53 and several companies of the fire department were soon on the scene. The fire was quickly extinguished. The

family physician was summoned to the house and he dressed the burns. house of Frank Boswell, 2217 Brightwood avenue, this morning about 11 o'clock and extinguished a slight blaze. The fire was in the chimney and it was extinguished be-fore the property had been damaged.

Three Colored Defendants Accused of Using Dangerous Weapon. James Bell, Eldridge White and James Thomas, alias Zip Bundy, all colored, indicted for assault with a dangerous weapon, were placed on trial-this morning before Justice Gould and a jury in Criminal Court No. 1. The indictment charges that the three men assaulted Officer Edward A. Dulin of the police force with brick bats January 20 last. The officer, it is charged, was struck on the head, on the neck and

Held on Charge of Assault. Frank Mack. colored, was held for the action of the grand jury in the Police Court this morning on a charge of making an assault with a dangerous weapon on John Danhakl of 1370 C street southeast. Bond in the case was fixed at \$1,000, but as Mack was unable to furnish security he was com-

mitted to fail. Mr. Danhakl is a saloon keeper in the southeast, and he was just closing up his shop on the evening of April 28 when Mack walked in and asked for some matches. A dispute arose over the granting of the request, when Mr. Danhakl tried to put Mack out. Mack at that juncture pulled a knife from his pocket and slashed the proprietor across the throat and in the chest. The wounds in the throat were so serious that Mr. Danhald's life was despaired of at first. He was able to appear in court today, how-

While Sergt. Lohman of the first precinct was passing near the corner of 9th and D streets northwest this morning his attention was called to the fact that a colored boy was in an areaway near the corner. The sergeant lifted up a board which covered the areaway and there found, he said, two small colored boys, curled up "like squirrels." One of the boys had barely enough clothes on him to cover the upper part of his body, and they were in rags. The other boy was shivering, and they were lying close together, trying to get warm.
